EXP 15	Career Pathways in Low-Code Development and Certification Planning

Aim:

To study the career pathways in low-code development and plan the certifications needed, using the experience gained from building the Hotel Room Booking application.

Theory:

Low-code skills are in high demand as companies want applications quickly. Platforms such as Zoho Creator, Microsoft Power Apps, OutSystems, Mendix and Salesforce offer roles and certifications.

Career Roles:

Role	Main Work	Skills Needed
Citizen Developer	Builds simple apps for own team	Forms, reports, basic workflows
Low-Code Developer	Builds business apps for clients	Zoho Creator, Deluge, integrations
Low-Code Solution Architect	Designs large, secure solutions	Data modelling, security, APIs
Automation Specialist	Automates business processes	Workflows, schedules, email/API
Business Analyst	Converts needs into app designs	Requirement analysis, dashboards
Hybrid Developer	Extends apps with code	JavaScript, Catalyst, REST APIs

Certifications:

Platform	Certification	Level
Zoho Creator	Zoho Creator Certified Developer	Beginner / Intermediate
Microsoft	Power Platform Fundamentals (PL-900)	Beginner
Microsoft	Power Platform Developer (PL-400)	Advanced
OutSystems	Associate Reactive Developer	Intermediate
Mendix	Mendix Rapid Developer	Beginner
Salesforce	Platform App Builder	Intermediate

Procedure:

1. Study the job roles in low-code development.
2. List the skills required for each role.
3. Identify certifications offered by low-code platforms.
4. Map the skills gained from the Hotel Room Booking project.
5. Prepare a certification plan.

Skills Gained from the Hotel Room Booking Application:

Skill	Where it was used
Data modelling	Rooms and Room Booking forms with lookup
Workflow automation	Validation, billing, room status, email

Deluge scripting	Workflows and custom functions
Dashboards	Booking dashboard and Command Center
Security	Roles, permissions, environments

Result:

The career pathways in low-code development were studied and a certification plan was prepared, starting with the Zoho Creator Certified Developer certification based on the skills gained from the Hotel Room Booking application.
